

ZABER

Simplifying Motion Control

The Linear Actuator and Stepper Motor Controller Specialist

**Automate precision positioning tasks quickly
and easily with Zaber products.**

We offer an extensive line of computer controlled linear actuators, linear slides, rotary stages, mirror mounts, motors, and other devices.

Most Zaber products have built-in controllers and can be daisy-chained and controlled from a single serial port.

Whether you need a single device or want to seamlessly combine several units in a multi-axis set-up, Zaber's motion control equipment is ideal for a broad range of precision positioning applications.
